

BCA Bodyshop

BCA Bodyshop services have been designed by BCA to uplift the condition grade of a vehicle to drive improved CAP performance.

With BCA, we present your vehicles in the right condition so they can sell faster and achieve optimum prices. Vehicles looking their best attract significantly higher buyer interest leading to more first time conversions and an increased CAP performance.

Buyers prefer vehicles that are well prepared as they are able to advertise and retail a vehicle quicker if it has been repaired and refurbished by BCA, improving stock turn and cash flow.

Unfortunately some vehicles arrive at auction damaged beyond the scope of a standard Smart Repair. Consequently they are marked down in their vehicle Condition Grading and attract less interest from buyers, negatively affecting their CAP performance.

BCA has invested in on site Bodyshop facilities allowing us to quickly and efficiently repair damaged vehicles, improving their Condition Grade, making them more desirable to buyers and driving their CAP performance and first time conversions. Furthermore, a ready to retail vehicle helps Buyers by reducing time to sale and improving stock turn.

Features

- On site bodyshop services
